# *Subject and Author Index to Volume 20*

Abdominal surgery, decreased muscle protein synthesis after, 135
Acridine orange leukocyte cytospin test, with endoluminal brush, in rapid diagnosis of catheter-related sepsis, 215
Acute renal failure
  nutrition management in, 3
  protein catabolism and nitrogen balance in, 56
Adhesive mucous gel layer
  distribution of, developmental changes in, 406
  as intestinal barrier, 98
Adolescents, Crohn's disease in, low- and high-fat peptide-based diets in, 401
AIDS
  cachexia in, megestrol acetate for, 165
  home parenteral nutrition in, central venous thrombosis in, 302
Alanyl-glutamine supplementation, in TPN, 417
Albumin, kinetics of, in hypoalbuminemic patients on TPN, 424
American Society for Parenteral and Enteral Nutrition, evolution of, 316 (Presidential Address)
Amino acids
  in acute renal failure, 3
  oral branched-chain, in hepatic encephalopathy, 159
Amino acid solutions
  calcium and phosphate solubility in, 63
  glycyl-tyrosine and glycyl-glutamine in, CSF and plasma concentrations of, 281
Anastomosis, portacaval, plasma fatty acids in cirrhosis and, 198
Arginine, lung microvascular uptake of, lipopolysaccharide and tumor necrosis factor and, 50

Bezoar, eophageal, in enteral feeding, 371
Bone loss, in home parenteral nutrition, 105
Book reviews
  *Nutricion por la Via Enteral* (Culebras et al), 167
  *Nutrition for the Hospitalized Patient: Basic Science and Principles of Practice* (Torosian), 167
Bowel. *See under* Colon; Intestinal; Small intestine
Butyrate, crypt surface hyperproliferation and, 243, 428 (erratum)

Cachexia, AIDS-related, megestrol acetate for, 165
Calcium bilirubinate gallstones, in TPN, chenodeoxycholate prevention of, 187
Calcium solubility, in amino acid solutions, 63
Carbohydrate, in dietary supplements, in cystic fibrosis, 182
Carbon dioxide production, in enterally fed preterm infants, estimation of, 389
Carotenoids, in laryngeal cancer, enteral nutrition and, 145
Case management, in home parenteral nutrition, cost-identification analysis in, 113
Catheter(s)
  central venous
    implanted, histologic sheath development with, 156
    occlusion of, ethanol and hydrochloric acid for, 380 (letter)
  Hickmann, migration of metal connector in, 311 (letter)
  long arm, tip location with, thrombosis and, 20
Catheter-related sepsis
  due to migration of metal connector, 311 (letter)
  rapid diagnosis of, with acridine orange leukocyte cytospin test and endoluminal brush, 215
Catheter sheath, histologic development of, 156
Central venous catheters
  implanted, histologic sheath development with, 156
  occlusion of, ethanol and hydrochloric acid for, 380 (letter)
Central venous thrombosis, in home parenteral nutrition, in AIDs, 302
*c-Fos*, crypt surface hyperproliferation and, 243
Chenodeoxycholate, in prevention of calcium bilirubinate gallstone formation, 187
Children
  bedside transpyloric tube placement in, 88
  early enteral feeding in, 71
  nutrient modules for, 228, 305 (erratum)
  TPN in, response to glucose discontinuation in, 120, 309
Cholelithiasis, calcium bilirubinate, in TPN, chenodeoxycholate prevention of, 187
Cholestyramine, lidocaine metabolism and, 349
Chromium deficiency, in home parenteral nutrition, neuropathy and, 123
*c-Jun*, crypt surface hyperproliferation and, 243
Clip-fixing device, in endoscopic tube placement, 306
$^{13}C$ nuclear magnetic resonance spectroscopy, of gluconeogenesis, in diet-restricted rat livers, 178
Colon, crypt surface hyperproliferation in, effects of butyrate, deoxycholate, *c-Fos* and *c-Jun* in, 243
Continuous arteriovenous/venovenous hemofiltration, nutritional support in, 3
Cope needle, in single-stage percutaneous gastrostomy insertion, 237
Cost-identification analysis, for home parenteral nutrition, 113
Critical illness, involuntary muscle function testing in, 332
Crohn's disease
  enteral nutrition in, remission induction by, 380 (letter)
  low- and high-fat peptide based diets in, for adolescents, 401
Crypt surface hyperproliferation, effects of butyrate, deoxycholate, *c-Fos* and *c-Jun* in, 243
Cystic fibrosis, glycemic response to dietary supplements in, 182
Cytokine production, dietary fish oil and, in HIV infection, 43

Deep vein thrombosis. *See* Thrombosis
Dental health, in home parenteral nutrition, 105
Deoxycholate, crypt surface hyperproliferation and, 243
Dexamethasone, lung microvascular arginine uptake and, 50
Dexamethasone-induced catabolism, insulin-like growth factor 1 and, 171
Dialysis, nutritional support in, 3
Diet
  high-fat peptide based, in Crohn's disease, for adolescents, 401
  modified, for short-bowel syndrome, 375
Dietary fish oil, in HIV infection, cytokine and eicosanoid production during, 43
Dodecanedioic acid, plasma clearance and oxidation of, 38
Duodenojejunal motility, after oral and enteral nutrition, 150
Dysphagic stroke, percutaneous endoscopic gastrostomy *vs* nasogastric feeding after, 374

Eicosanoid production, dietary fish oil and, in HIV infection, 43
Elderly, energy-enriched hospital food for, 93
Embolism, pulmonary, fatal microvascular, precipitation of total nutrient admixture and, 81, 435 (letter)
Endoluminal brush, acridine orange leukocyte cytospin test and, in rapid diagnosis of catheter-related sepsis, 215
Endoscopic tube placement, with metal clip, 306
Energy-enriched hospital food, for elderly, 93
Energy expenditure, in nasogastric tube feeding, in head trauma, 31, 378 (letter)
Enteral nutrition
  in Crohn's disease, remission induction by, 380 (letter)
  in cystic fibrosis, carbohydrate content of formula in, 182
  duodenojejunal motility after, 150
  early, in pediatric ICU, 71
  endoscopic tube placement with metal clip in, 306
  esophageal bezoar in, 371
  formulas in
    carbohydrate content of, in cystic fibrosis, 182
    protein and peptide-based, glutamine in, 292
  in head-injured patient, 1 (editorial)
  in laryngeal cancer, retinol, α-tocopherol, and carotenoids in, 145
  nasoduodenal, postpyloric tube placement in, erythromycin for, 385
  nasogastric
    in head trauma, energy expenditure and gastric emptying in, 31, 378 (letter)
    *vs* percutaneous endoscopic gastrostomy, after dysphagic stroke, 374
  protein and peptide-based formulas in, glutamine in, 292
  tube placement in
    bedside transpyloric, in pediatric ICU, 88
    endoscopic, with metal clip, 306
Erratum, 305, 370, 428
Erythromycin, in postpyloric nasoduodenal tube placement, 385
Esophageal bezoar, in enteral feeding, 371
Essential fatty acids, in long-term home parenteral nutrition, 377 (letter)
Ethanol, for central venous catheter obstruction, 380 (letter)

Fatty acids
  essential, in long-term home parenteral nutrition, 377 (letter)
  plasma, in cirrhosis, portacaval anastomosis and, 198
  short-chain
    postresection increase in proglucagon and ornithine decarboxylase mRNA and, 357
    postresection intestinal adaptation and, 338
Feeding tubes. *See under* Tube

Fish oil, in HIV infection, cytokine and eicosanoid production during, 43
Food, energy-enriched hospital, for elderly, 93
Formulas
  enteral
    carbohydrate content of, in cystic fibrosis, 182
    protein and peptide-based, glutamine in, 292
  high-osmolaltiy, in peripheral IV nutrition, thrombophlebitis and, 194
Fractures. *See* Trauma

Gallstones, calcium bilirubinate, in TPN, chenodeoxycholate prevention of, 187
Gastric emptying, in nasogastric tube feeding, in head trauma, 31
Gastroduodenal motility, in mechanical ventilation, 309
Gastrostomy, percutaneous endoscopic
  *vs* nasogastric feeding, after dysphagic stroke, 374
  peritoneal leakage of gastric contents in, 433
Gastrostomy button, single-stage percutaneous insertion of, 237
Glucagon, xylitol effects on urea synthesis and, 139
Gluconeogenesis
  in diet-restricted rat livers, 178
  measurement of, 13
  regulation of, 13
Glucose, in TPN, abrupt discontinuation of, pediatric response to, 120, 309
Glucose tolerance, in cystic fibrosis, carbohydrate in dietary supplements and, 182
Glutamine
  in chronic hypocaloric parenteral nutrition, 25
  in protein and peptide-based enteral products, 292
  for short-bowel syndrome, 375
  in TPN, in premature infants, 74
Glutamine-alanyl supplementation, in TPN, 417
Glutamine-free diet, isocaloric, small intestine and, 128
Glutamine metabolism, 13
Glycerol kinetics, 13
Glycyl-glutamine, in amino acid solutions, CSF and plasma concentrations of, 281
Glycyl-tyrosine, in amino acid solutions, CSF and plasma concentrations of, 281
Growth hormone
  postoperative nitrogen metabolism and hepatic IGF-1-mRNA expression and, 325
  for short-bowel syndrome, 375

Harry M. Vars Research Award, 243
Head injury
  nasogastric tube feeding in, energy expenditure and gastric emptying in, 31, 378 (letter)
  nutritional support in, 1 (editorial)
Hemodialysis, nutritional support in, 3
Hemofiltration, nutritional support in, 3
Heparin
  hyperkalemia and, in home parenteral nutrition, 429
  stability of, in parenteral nutrition formulas, 219
Hepatectomy, nucleoside-nucleotide mixture infusion after, hepatic energy metabolism and, 211
Hepatic dysfunction, PN-related, lidocaine metabolism in, cholestyramine effects on, 349
Hepatic encephalopathy, oral branched-chain amino acids in, 159
Hepatic energy metabolism, nucleoside-nucleotide mixture infusion and, 211
Hepatic IGF-1-mRNA expression, postoperative, growth hormone and insulin-like growth factor 1 and, 325
Hickmann catheter, migration of metal connector in, infection and, 311 (letter)
High-fat peptide based diets, in Crohn's disease, for adolescents, 401
High-osmolality formulas, in peripheral IV nutrition, thrombophlebitis and, 194
Home parenteral nutrition
  in AIDS, central venous thrombosis in, 302
  bone loss and oral state in, 105
  case management in, cost-identification analysis in, 113
  chromium deficiency in, neuropathy and, 123
  drug-related hyperkalemia in, 429
  long-term, essential fatty acid levels in, 377 (letter)
  selenoprotein P in, 287
Hospital food, energy-enriched, for elderly, 93
Human immunodeficiency virus infection, dietary fish oil in, cytokine and eicosanoid production during, 43
Hydrochloric acid, for central venous catheter obstruction, 380 (letter)
Hyperglycemia, in cystic fibrosis, carbohydrate in dietary supplements and, 182
Hyperkalemia, drug-related, in home parenteral nutrition, 429
Hypoalbuminemia, in TPN, albumin kinetics in, 424
Hypoglycemia, after TPN discontinuation, in young children, 120, 309

Ileal transplant, lipid absorption in, 67
Iliocecal junction bypass, short-chain fatty acids after, postresection adaptation and, 338
Immune response, with short-chain fatty acid supplement of TPN, 264
Infants, preterm
  enterally fed, carbon dioxide production in, estimation of, 389
  glutamine-supplemented parenteral nutrition in, 74
Infection. *See* Sepsis
  reversible impairment of monocyte major histocompatibility complex class II expression and, 344
Injuries. *See* Trauma
Insulin, protein metabolism and, 13
Insulin-like growth factor 1
  dexamethasone-induced catabolism and, 171
  for intestinal disorders, 315 (editorial)
  postoperative nitrogen metabolism and hepatic IGF-1-mRNA expression and, 325
  in severe sepsis and multiple injury, 363
Intestinal adaptation, short-chain fatty acids after, 338, 357
Intestinal permeability, developmental changes in, 406
Involuntary muscle function testing, after critical injury or severe sepsis, 332
Isocaloric glutamine-free diet and, small intestine and, 128
Isotope dilution stable tracer technique, in $CO_2$ estimation, in enterally fed preterm infants, 389

Jejunal transplant, lipid absorption in, 67
Jonathan E. Rhoads Lecture, 3, 319

Lactate, in short IV nutrition, metabolic and respiratory effects of, 257
Large intestine. *See under* Colon; Intestinal
Laryngeal cancer, retinol, α-tocopherol and caroteinoids in, enteral nutrition and, 145
Lidocaine, hepatic metabolism of, cholestyramine and, 349
Line infection
  with Hickman catheter, due to migration of metal connector, 311 (letter)
  rapid diagnosis of, with acridine orange leukocyte cytospin test and endoluminal brush, 215
Lipid absorption, in jejunal *vs* ileal transplantation, 67
Lipid particle size distribution, in total nutrient admixtures, in-line filtration and, 296
Lipogenesis, regulation of, 13
Lipopolysaccharide, lung microvascular arginine uptake and, 50
Long arm-catheters, tip location with, thrombosis and, 20
Low-fat peptide based diets, in Crohn's disease, for adolescents, 401
Lung microvascular arginine uptake, lipopolysaccharide and tumor necrosis factor and, 50

Magnetic resonance spectroscopy, of gluconeogenesis, in diet-restricted rat livers, 178
Major histocompatibility complex class II expression, reversible impairment of in malnutrition, 344
Manganese, supplemental, in TPN, 311 (letter)
Mechanical ventilation, gastroduodenal motility in, 309
Medicina gastrostomy button, single-stage percutaneous insertion of, 237
Megestrol acetate, for AIDS-related cachexia, 165
Metabolic complications, of TPN, Nutrition Support Services and, 206
Metabolsm, substrate, 13
Mixed micelles, safety of, 110
Modular nutrients, pediatric use of, 228, 305 (erratum)
Monocyte major histocompatibility complex class II expression, reversible impairment of in malnutrition, 344
Mucous gel layer
  distribution of, developmental changes in, 406
  as intestinal barrier, 98
Mucus release, as intestinal barrier, 98
Muscle function analysis, after critical injury or severe sepsis, 332
Muscle protein synthesis, decreased, after abdominal surgery, 135

Nasoduodenal tube, postpyloric placement of, erythromycin for, 385
Nasogastric tube feeding. *See also* Enteral nutrition
  in head trauma, energy expenditure and gastric emptying in, 31, 378 (letter)
  *vs* percutaneous endoscopic gastrostomy, after dysphagic stroke, 374
Neonates, preterm
  enterally fed, carbon dioxide production in, estimation of, 389
  glutamine-supplemented parenteral nutrition in, 74
Neuropathy, chromium deficiency and, in home parenteral nutrition, 123
Nitrogen balance, in acute renal failure, 56
Nitrogen metabolism, postoperative, growth hormone and insulin-like growth factor 1 and, 325
Nuclear magnetic resonance spectroscopy, of gluconeogenesis, in diet-restricted rat livers, 178
Nucleoside-nucleotide mixture infusion, hepatic energy metabolism and, 211

*Nutricion por la Via Enteral* (Culebras et al), 167
Nutrient modules, pediatric use of, 228, 305 (erratum)
Nutritional support, managing the future for, 383 (editorial)
Nutritional support outcomes research consortium, 394
*Nutrition for the Hospitalized Patient: Basic Science and Principles of Practice* (Torosian), 167
Nutrition Support Services
metabolic complications of TPN and, 206
in reducing inappropriate use of TPN, 272

Obesity, energy expenditure in, 13
Octreotide, hyperkalemia and, in home parenteral nutrition, 429
Oral branched-chain amino acids, in hepatic encephalopathy, 159
Oral health, in home parenteral nutrition, 105
Ornithine decarboxylase, postresection increase in, short-chain fatty acids and, 357
Outcomes research, specialized consortium for, 394

Parenteral nutritiom, total, pediatric response to glucose discontinuation in, 120, 309
Parenteral nutrition
chronic hypocaloric, glutamine in, 25
home
in AIDS, central venous thrombosis in, 302
bone loss and oral state in, 105
case management in, cost-identification analysis for, 113
chromium deficiency in, neuropathy and, 123
drug-related hyperkalemia in, 429
long-term, essential fatty acid levels in, 377 (letter)
selenoprotein P in, 287
peripheral vein, fatal microvascular pulmonary embolism and, 81, 435 (letter)
reducing inappropriate use of, in teaching hospital, 272
solutions for, stability of heparin activity in, 219
total
alanyl-glutamine–supplemented, 417
calcium bilirubinate gallstones in, chenodeoxycholate prevention of, 187
dexamethasone-induced catabolism in, insulin-like growth factor 1 and, 171
glutamine-supplemented, for premature infants, 74
hypoalbuminemia in, albumin kinetics in, 424
manganese supplementation in, 311 (letter)
metabolic complications of, Nutrition Support Services and, 206
short-chain fatty acids in, immune response and, 264
sodium lactate in, metabolic and respiratory effects of, 257
superior vena cava syndrome in, stents for, 222
Pediatric. *See* Children
Peptide-based diets, in Crohn's disease, for adolescents, 401
Percutaneous endoscopic gastrostomy
*vs* nasogastric feeding, after dysphagic stroke, 374
peritoneal leakage of gastric contents in, 433
Percutaneous gastrostomy button insertion, single-stage, 237
Peripheral IV nutrition, high-osmolality formulas in, thrombophlebitis and, 194
Peritoneal leakage, of gastric contents, after percutaneous endoscopic gastrostomy, 433
Phlebitis, tip location of long arm-catheters and, 20
Phosphate solubility, in amino acid solutions, 63
Plasma fatty acids, in cirrhosis, portacaval anastomosis and, 198
Plasma proteins, in severe sepsis and multiple injury, 363
Postpyloric nasoduodenal tube placement, erythromycin for, 385
Preterm infants
in enterally fed, carbon dioxide production in, estimation of, 389
glutamine-supplemented parenteral nutrition in, 74
Proglucagon, postresection increase in, short-chain fatty acids and, 357
Protein(s), plasma and total body, in severe sepsis and multiple injury, 363
Protein catabolism, in acute renal failure, 56
Protein metabolism
in critical illness, 13
insulin and, 13
Protein synthesis, decreased muscle, after abdominal surgery, 135
Pulmonary embolism, fatal microvascular, precipitation of total nutrient admixture and, 81, 435 (letter)

Renal failure, acute
nutrition management in, 3
protein catabolism and nitrogen balance in, 56
Retinol, in laryngeal cancer, enteral nutrition and, 145
Rhoads Lecture, 3, 319

Selenite, metabolism of, in short-bowel syndrome, 412
Selenoprotein P, in home parenteral nutrition, 287
Sepsis
catheter-related
due to migration of metal connector, 311 (letter)
rapid diagnosis of, with acridine orange leukocyte cytospin test and endoluminal brush, 215
changes in insulin-like growth factor 1, plasma proteins and total body proteins in, 363
severe, involuntary muscle function testing in, 332
